EUONYMUS ALATUS COMPACTA

Introduced by us from plants received from France several years ago. It has been welcomed as one of the most desirable shrubs for general landscape work.

Useful for shrub plantings, or to be planted alone, and invaluable as a hedge plant because trimming is almost unnecessary.

Considered by Arnold Arboretum one of the outstanding shrubs for fall color.

Our stock is complete in the following sizes:

	Per 10	Per 100
2 to 2½ feet	\$3.50	\$30.00
2½ to 3 feet	4.00	35.00
3 to 4 feet	4.50	40.00
